An Extra Tax on Your Auto

Is a farmer's automobile a "farm implement"?

If it isn't, and the farmer resides within the limits of an incorporated village district, then he is liable to have a school tax put on it.

If it is a "farm implement," then it is exempt from taxation under the Act.

This interesting question is at present being decided by a test case in Opal Village S. 11 and the decision, one way or the other, will carry its effect through the province.

At Rocky Mountain House a tax is being placed on autos, the tax in some cases running as high as \$36 per car, so it is reported.

The School Assessmen tact (see 24) says village and consolidated S.D.s may tax for school purposes all property, real and personal. Certain

Sporting Notes.

As printed in our supplement last week, the ball tournament in Stony Plain resulted in a win for Duffield over Holborn by 12 runs to 3; and by Walther League beating the Grove by 11 to 8. The winners of these games clashed on the local diamond on Sunday last, with the result that Duffield beat Walther League by a fairly large score. Battery for winners—Ph Enders & C. Lory.

The Grove's ball team motored to the Beach on Sunday only to find that their City opponents did not show up.

articles are, however, exempt from taxation.

The situation appears to be that when a village S.D. having placed the maximum ten mills on its farm lands, finds its income still below its expenditure, it proceeds to tax the personal property in the village S.D.

Wednesday Half-Holiday.

During the months of July and August all places of business in Stony Plain will close Wednesday afternoon at one o'clock.

LOCAL NEWS.

The four Litke brothers left Saturday by motor car for Assiniboia, Sask., to work in the wheat fields.

Corp. Moses, Mrs. Moses and the family returned home yesterday from a fortnight's vacation spent at their summer cottage, Seba Beach.

Mr. W. M. Washburn motored up to Westlock over the week-end with his daughter Miss Bertina. The latter has been engaged to teach at Lunnford, near Pickardville, and her school opened Monday last.

Work on the new Pool elevator has been completed, the construction gang has gone East, and Mr. Baker is in a position to receive grain.

Walther League ball players are engaged to play at Edmonton Beach next Sunday afternoon.

John Stanb, an enterprising farmer from north of town, was a successful exhibitor at the recent Fair in Edmonton, he securing 2 first prizes, 2 seconds, 1 third and 2 fourths for his various exhibits.

R. C. services will be held in the Town Hall on Sunday next at 9 a.m.

If your eyes bother you, or you suffer from headaches, why not have your eyes attended to by an expert? M. M. Mecklenburg, eye specialist, 10150 101st St., Edmonton.

Wheat Pool Meeting in Stony

Special interest will be taken in the announcement that Mr. N. P. Davison will deliver an address in Stony Plain on the evening of Saturday next, Aug. 18. This is the gentleman who made such a good impression by the address he recently made at Holborn; and no doubt the local hall will be crowded when he brings his special message to local wheat growers.

In addition to Mr. Davison, representatives of the Dairy Pool in the person of Mr. Love and Christie will be present to make short addresses on behalf of the organization they represent.

School Notes.

The pupils in grade 8 at the local school were fairly successful at the recent Departmental exams—six passing out of seven who had written.

The last day for receiving applications for supplemental exams is Aug. 21, the date on which these exams begin.

This year a Normal school will be re-established in Edmonton. This will be a great convenience to those candidates from this district. Normal opens Tuesday, Sept. 4.

HARDWICK'S Pre-Harvest Sale, August 20 to Sept. 1

Announcing the NEW UTILITY TRUCK—another Sensational Chevrolet Value 4 Speeds Forward • 4 Wheel Brakes

NOW Chevrolet presents the New Utility Truck—a low-priced haulage unit embodying every feature of advanced engineering developed through years of experience in commercial car-building and proved by exhaustive testing on the General Motors proving ground!

Typical of the progressive design embodied in this sensational new truck are a four-speed forward transmission, powerful non-locking four-wheel brakes, full ball-bearing steering mechanism, front shock absorber springs, air-bound seat cushions and channel front bumper. In addition, it offers all those basic features which have been so largely instrumental in Chevrolet's tremendous success as the world's largest builder of trucks—rugged rear axle with one-piece banjo-type housing . . . semi-elliptic springs set parallel to the load . . . completely enclosed valve-in-head motor with air cleaner, oil filter and positive action vane type oil pump . . . thermostatic control of water circulation . . . low loading height . . . generous road clearance and countless other features of comparable importance.

Visit your Chevrolet dealer and get a trial-load demonstration of this remarkable new truck! It has been developed to meet the modern conditions of business transportation and body types are available for every type of business.

Price only \$665

Canada To The Fore

The breaking of records by Canada is becoming a commonplace. It is indeed an off year when, in some branch of human activity and endeavor, this young Dominion does not attract world attention to itself by some new and startling achievement.

Prior to the war, Canada was hardly known, even as a name, to the vast majority of the peoples of Europe, and those who recognized the name had but slight knowledge of the country. To most of the world, Canada was one of the colonies which Britain had scattered here and there over the face of the globe, but which was of little value and of still less importance in world affairs.

In the war Canada made a name for itself, and other nations were suddenly made to realize that there had arisen in the western hemisphere a nation which already was helping to write history in large and impressive characters and was destined to have a profound effect upon international relations, political and economic. Canada's war effort served, perhaps as nothing of a less spectacular nature could have done, to turn the attention of the people of the United States northward, and awaken them to the fact that the whole of North America was not to be found within the confines of the republic; that, on the contrary, a second American power was rapidly developing at their very doors.

Since the war the reality of this fact has year by year been emphasized. Long the world's greatest exporter of wheat, the United States has seen Canada pass it and secure that title by a wide margin. Within the past year or two, the United States has been forced to also relinquish to Canada the distinction of being the world's largest manufacturer of paper. Steadily, year by year, Canada has been passing other countries in the production of gold and is now within measurable distance of overtaking the United States and assuming second place to South Africa.

Contributing a volume of only minor importance to the total trade and commerce of the world a bare generation ago, Canada is now one of the world's greatest traders, a factor to be reckoned with in all the markets of the world. Before the war, dependent upon the money markets of Great Britain and the United States to finance its many undertakings, Canadians today are able not only to finance their own country, but to an ever increasing extent are financing huge undertakings in other countries, while at the same time rapidly buying back into full Canadian control many large corporations of this country which in years of our financial immaturity were financed and controlled by British and United States capitalists.

The war, and Canada's significant participation therein, also had the effect of raising the international status of the Dominion, giving it not only a status of equality with Great Britain within the Empire, but the rank of a nation in the council of nations. The refusal of the United States to join the League of Nations undoubtedly had the effect of the more directly focusing attention upon the North American nation which did join, and placing Canada in the forefront in the League membership.

And since destiny called upon Canada to play its part in the international arena, this Dominion assumed the responsibility with dignity and real effectiveness. Its place around the council board at Geneva has been no minor or insignificant one. Rather, Canada has wielded an influence possibly out of proportion to its present population, but in keeping with the growing importance which other nations now attach to this Dominion.

Having thus moved out into the great international arena, Canada this year decided to be worthily represented at the Olympiad, the great meeting place of the athletes of the world. Despite its small and widely scattered population, this young Dominion dared to try conclusions with the much more numerous representatives of other countries in the field of sport and athletic skill and endurance. And again Canada surprised the world. The sons and daughters of the Dominion carried the flag of Canada to victory time and time again, winning many of the premier events. A Canadian school boy, Percy Williams, of Vancouver, achieved the double victory of winning the 100 metres and the 200 metres race, regarded as classics of the great meet. Ethel Catherwood, a Saskatchewan girl, won the high jump and in doing so established a new world's record. A quartette of Toronto girls also broke the world's record in winning the 400 metres relay race. Considering the number of events in which the Canadians participated, no other country in the world approached their record.

National Radio Chain

Broadcasting Companies To Improve Quality Of Radio Programs

A national chain broadcast organization, divided into two sections, will commence operation about September 1. It was announced in Toronto, by R. W. Ashcroft, who has been appointed manager of the newly formed Trans-Canada Broadcast Company.

Mr. Ashcroft said the organization of the company was the outcome of a suggestion by F. J. A. Cardin, minister of marine and fisheries, that an effort be made by Canadian broadcast companies to improve the quality of domestic radio programs.

Key stations of the new organization will be located in Winnipeg and Toronto.

Stations in Montreal, Ottawa, Kingston, Hamilton, London and Quebec, will be linked up with the eastern section and stations in Saskatoon, Regina, Edmonton, Lethbridge and Vancouver with the western section.

Charity covers a multitude of sins that should be allowed to remain uncovered.

Frown On Reckless Flying

Ban Placed On U.S. Army Airmen Doing Daredevil Stunts At Exhibitions

A ban was placed today on United States army aviators participating in exhibitions of dare devil stunts, such as wing walking and performances of a similar nature.

"This does not, of course, apply to legitimate flying acrobatics at proper altitudes," explained Army Air Secretary Davison, "but merely to exhibitions such as trapeze work, wing walking, changing from one plane to another in the air, transferring from automobile to airplane and stunts of that character."

GIRLS AND WOMEN NEED RICH BLOOD

This Lady Found Dr. Williams' Pink Pills a Friend Indeed

Just because she is a woman there are times when every woman needs rich and strength in the form of a blood-building tonic.

To thousands of girls and women Dr. Williams' Pink Pills have proved a blessing because they enrich the blood, give strength and restore tone to the aching nerves. The anemic girl who is languid and pale, the wife whose back feels like breaking; the matron whose health falls as she reaches middle age; for all such sufferers Dr. Williams' Pink Pills are invaluable because ill-health in girls and women is usually caused by poor blood or insufficient blood. These pills have proved a blessing to thousands of others, why not you? At various stages of life Mrs. G. R. Lake, Walton, N.S., has proved the value of Dr. Williams' Pink Pills. She says: "I first used these pills when a young girl, for it is during the 'teen age' when nature calls upon every bit of the reserve strength we have, that we need their rejuvenating help. It was then I found Dr. Williams' Pink Pills a friend indeed. And again, now that the girlhood stage is past and I am a mother of four children, subject to all the cares and worries of the home, Dr. Williams' Pink Pills is the only tonic I take to keep up my health and strength, and they have never failed. Should any ailing girl or weary mother, due to any ailment, try these pills, I know they will find them as equally good as I have done."

You can get these pills from any medicine dealer or by mail at 50 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

Saskatchewan Wheat Pool

The Saskatchewan Wheat Pool report an increase in acreage signed up for the new five year contract period, 1928-1933. They report 85 per cent of the old contract holders signed to date, also a large number of new contracts.

Miller's Worm Powders, being in demand everywhere, can be got at any chemist's or drug shop, at very small cost. They are a sure remedy for worm troubles and can be fully relied upon to expel worms from the system and abate the sufferings that worm cause. There are many mothers that rejoice that they found available so effective a remedy for the relief of their children.

Secure Grazing Lease

A lease for grazing purposes of 51,807 acres of land northwest of the South Saskatchewan river, has been granted the Home Ranch Company, Ltd., of Bow Island, Alta.

Minard's Liniment for Blistered Feet.

First Maid: Your fiancée stutters quite a bit, doesn't she?

Second Maid: Yes, but it doesn't matter. After we are married he won't have a thing to say, anyway.

A Remedy For Earache.—To have the earache is to endure torture. The ear is a delicate organ and few care to deal with it, considering it work for a doctor. Dr. Thomas' Electric Oil offers a simple remedy. A few drops upon a piece of lint or medicated cotton and placed in the ear will do much in relieving pain.

Greyhounds are perhaps the oldest known type of dog. Stone carvings dating back to about 400 B.C. show figures of these graceful animals.

Sweet and Palatable. Mother Graves' Worm Exterminator is acceptable to children, and it does its work surely and promptly.

Music produced in Australia was recently heard over the radio by passengers travelling on a railway train in England.

Minard's Liniment—a reliable first aid.

A FRIEND OF THE PRESS

F. E. TRAUTMAN
Press Representative, Canadian Pacific Railway

Newspaper editors and proprietors from the Great Lakes to the Pacific Coast, comprise quite a large fraction, and to know each and every one individually means a fairly large acquaintanceship. Mr. F. E. Trautman, C.P.R. Press Representative, will possibly tell you that he has more than a nodding acquaintance with all the old-timers and most of the men who have more recently entered the newspaper field in Western Canada. Quite a few years have passed since Mr. Trautman quit the editorial chair of the Port William Times-Journal, to enter the service of the Canadian Pacific Railway in his present capacity. During the intervening time he has cultivated and held the friendship of the newspaper men throughout Western Canada in particular and Eastern Canada as well. Mr. Trautman's outstanding characteristic is his geniality, and the whole-souled interest he has taken in the welfare of the press is proverbial.

He has been ever present at annual gatherings of the Manitoba, Saskatchewan, and Alberta weekly newspaper associations, and has contributed in his own way, and in a large measure to the success of these conventions.

The value of the production of the fisheries of Canada for the year 1927, was \$49,460,600.

It's more than a problem in geometry to square the eternal triangle.

Fur Farming Very Soon To Be A Recognized And Established Western Canadian Industry

Authorities make the prediction that within the next quarter of a century fur farming will be a stabilized industry in Western Canada, accepted and recognized as one of the many phases of agriculture in that territory instead of as a somewhat novel, extraneous activity. The trend in that direction is unmistakable. Farming settlement is extending northward, and, with scientific development having added considerably to the dominion of the plow, the tendency to raise furs intensively and domestically will inevitably become more accentuated, and fur farming takes its place alongside the other established activities of that territory. And because this area is by reason of its climate and other conditions capable of producing superior peltry it need fear no rivalry from other countries where the pursuit is similarly developing.

Many branches of fur farming have become soundly established in Western Canada to the extent they have got past the stage of foundation, and are exporting live animals abroad. One of the branches which has received relatively little attention, but which is promised a meteoric development, is that of muskrat and beaver farming, particularly the former. From a position of virtual insignificance in the fur trade this little animal has attained a place of outstanding importance by reason of his pelts' multiplicity of uses. The security of the future of the muskrat industry is held to be the readiness with which the pelt of this little animal can be adapted to imitate the rarer add more valuable peltry. His position is secure as far as can be seen into the future. And while this industry is established in other parts of the Dominion it promises to be one which Western Canada is going to make peculiarly its own.

According to all reports a veritable army of men in the Prairie provinces has been awaiting the completion of arrangements for the transfer of the marshlands and other suitable tracts from the Federal Government to the provinces. There are stated to be 800 applicants waiting in Alberta and hundreds in Saskatchewan and Manitoba. According to announcement these lands are to be leased for fur-farming purposes at 25 cents per acre for three years and \$1 per acre for each successive year. There is every indication of wholesale establishment to take place as soon as filing is open.

British Columbia is not lagging behind her prairie sisters, having long since securely established this industry, which is thriving in several suitable sections, and in which is to be found the world's largest establishment of this nature. The Columbia-Kootenay Valley has come particularly to the fore in this regard and many individuals from adjoining States of the Union have in the past few years moved up to follow the pursuit there. A further addition to such ranches was recently made when a group of Kootenay business men secured a large holding of bottom land from the Columbia Valley Ranches Limited, on the Kootenay Central Branch of the Canadian

Pacific Railway, for the purpose of entering upon beaver and muskrat ranching on a large scale. This follows three similar fur-farming enterprises to establish in this section.

The industry is one which appeals from many points of view. The land so utilized is largely waste, and unproductive. Operation is economical and to achieve success does not necessitate any great experience or amount of technical knowledge. The increasing demand for muskrat has elevated prices considerably. These are now fairly stabilized, in the opinion of authorities, who are confident of the industry's ability to produce in the future. The average value of all muskrat sold in Canada at the time of the Government's last fur return was \$1.54, while at recent Montreal sales as high as \$2.70 per pelt has been secured. Ranch-bred pelts naturally bring higher prices, and since large-scale operation is the essence of the muskrat industry it is not difficult to realize the profit which can be made.

Muskrat farming is to become an additional source of revenue in Western Canada from its pursuit as a sole occupation or as a phase of mixed farming. The acquisition of furs in Western Canada has always proved a welcome and convenient means of adding to the year's profits, and this continues even in long settled and established districts, since certain valued fur-bearers tend to increase with settlement. A new industry conferring a double benefit came into existence in Western Canada when it was found that owing to newly discovered tanning processes the native rabbit, which exists there in thousands, could be profitably disposed of. In the past winter one Winnipeg firm alone handled more than 1,500,000 wild rabbit skins, paying for them an average of 10 cents apiece. Furs taken in Western Canada today have an annual value of between \$6,000,000 and \$10,000,000 and the attention being paid to fur farming should have the effect of augmenting this figure.

Canadian Hospitality

New Resident From Old Land Pays
Tribute To Kindness Of Canadian
People

When he was in the city as a guest of the Chamber of Commerce the other day, Mr. J. W. Chadwick, deputy town clerk at Barrow-on-Furness, England, said: "It is my first visit to Canada, and I assure you my impressions have been very good, especially with respect to the sociability and kindness of the Canadian people."

In an Old Country newspaper there appeared recently a letter from Mr. H. Hodgson, two years out from England, now a farmer near Manville, Alberta, who said this in part: "We have done fairly well this year; it was our first crop. We had thirty-five acres of wheat in, and we got 1,079 bushels off it, so if we do as well this year we are not afraid of getting on. We were well done by the Canadians when we got here. When we arrived at Manville it was four o'clock in the morning and we were met by four gentlemen who took us to a big hall. It was lovely and warm. There were beds for us and a box of provisions for us, and we stayed in this hall until the next day, for our baggage did not arrive until then. We were then taken to our new home, nine miles out of Manville. We had a new house and new barn for our cattle, and the neighbors near us had the fires on when we arrived. Everyone out here is so friendly."

Tributes to Canadian hospitality and friendliness, of course, are unstintingly paid by most people who visit the Dominion. It is refreshing to read them, moreover, if only to contrast them with the impressions of the Bishop of London, who recently said that he had failed to find an enthusiastic welcome for a Britisher in any part of the Empire—Victoria Times.

Some men look for happiness with a lantern when the sun is shining.

Encourage Farm Study

Daughters of Empire Will Give
Bursaries To Quebec Students

"To encourage the study of agriculture in the Province of Quebec, the Quebec provincial chapter of the Imperial Order Daughters of the Empire have decided to give two bursaries to students in agriculture, beginning with the academic year 1928-1929. Impartiality towards the two races has marked the arrangements as one of the bursaries is set apart for Macdonald College, while the other goes to the agricultural college at St. Anne de la Pocatiere, which is entirely French. It has been stipulated that the bursaries, which are for \$200 each, shall be awarded the students taking the highest marks in the final examinations of the second year of the degree course in agriculture. In both colleges there are short courses, but the scholarships of the I.O.D.E. are intended primarily to help students who wish to make a thorough study of the profession.

The Daughters of the Empire had found that very little was being done in Quebec to encourage the study of farming in an up-to-date and scientific manner, it was stated. As their policy is patriotic and educational, it seemed thoroughly fitting that the bursaries be given at the present time for agriculture, in order to show the interest of the Daughters of the Empire in all phases of their country's welfare.

Fall Ploughing Sod For Corn

Should Be Planned Soon As Possible
After Removal Of Hay Crop

Sod land to be put into corn next year according to tests made at the Experimental Farm, Ottawa, should be ploughed as soon as possible after the hay crop has been removed. This is particularly recommended for weedy land, which should be worked frequently after the ploughing until late in October when it should again be ploughed and left rough over winter. According to the report of the Dominion Field Husbandman for 1927, published by the Department of Agriculture, Ottawa, this practice may not necessarily increase the yield of late fall over spring ploughing, but it lessens the work of weed eradication. While the second ploughing may in the case of light soil be left until spring when the weeds have been pretty well controlled, it is much better, under all conditions according to this report, in the case of clay soil to do the second ploughing in the autumn.

Park Animals Are Fearless

Wild life conservation measures adopted and enforced in the National Parks of Canada, have resulted in the wild creatures losing much of their fear of man. It is no uncommon occurrence to encounter wild deer on the streets of Banff townsite, in Rocky Mountain Park, Alberta, while Rocky Mountain sheep graze alongside certain sections of the park highways, undisturbed by the passing motor traffic.

The average time taken by blood to circulate from one arm to the other is 15 seconds. It makes the round trip three and a third times a minute.

Greatest Ranching Areas On The North American Continent Are To Be Found In The West

Smartly Simple Frock For the Junior
Miss

This smart little one-piece frock for the Junior Miss is a style the home modiste will find quite simple to fashion. There is an inverted plait in the centre-front of the skirt and the pointed yastee with shaped collar is chic. The sleeves are long and gathered into narrow wristbands and the belt fastens with a buckle at front. No. 1303 is in sizes 6, 8, 10, 12 and 14 years. Size 8 requires 2½ yards 32-inch, or 2½ yards 39-inch material. Price 25 cents the pattern. Many styles of smart apparel may be found in our Fashion Book. Our designers originate their patterns in the heart of the style centres, and their creations are those of tested popularity, brought within the means of the average woman. Price of the book 10 cents the copy.

The way prices are today says the Kitchener Record, about the only time that a person has occasion to ask for change for a quarter is on Sunday morning.

Political economists in the United States are now beginning to realize the importance of Canada's food producing possibilities. Not only is the home population continually increasing, but the extension of its cultivated land is gradually contracting the vast open spaces once available for free stock ranges. The recent drain on Canada's beef and dairy cattle to replenish the depleted United States herds is more likely to increase than diminish, judging from the estimates of the situation appearing in newspapers south of the line. In the last fiscal year Canada exported 289,021 head of cattle, worth \$13,877,405, figures exceeded only in 1919, 1920 and 1921. A recent Canadian Pacific bulletin on ranching in Canada states that Canada's cattle have been moving across the border at prices which are returning to their producers the greatest profits ever received, and the prospect is that this situation will continue for some time. It goes on to point out that any possible surplus above United States requirements should find an outlet through the British Isles and, probably, Japan, the latter country having recently taken several shipments of Alberta cattle.

The bulletin has attracted attention in the United States, more particularly its statement that south of the main line of the railway, in the provinces of Saskatchewan and Alberta alone, are more than 5,000,000 acres of leased range land where giant herds of horses, cattle and sheep roam the prairies, pasturing on the rich grasses as they did in the area's earliest stage of development, and where by reason of conditions they will probably always continue to do so. Within the railway belt of the United States are over 6,000,000 acres of leases, the number of leases and the area comprised steadily increasing. A direct impetus to the ranching industry was recently given by the Department of the Interior in an amendment, when it allowed the granting of 21-year leases.

This region has long been established as one of the greatest ranching areas on the North American continent, but it does not represent more than a relatively moderate proportion of the available country. Other sections of the Canadian West offer equal opportunities for raising of live stock on an extensive scale. Much interest is being taken in the Peace River tract of Northern Alberta and the valleys of the interior of British Columbia. In the vast region of the Peace River are large tracts of good grazing land suitable for ranching, the bright prospect facing the industry at the present time, enticing many to this territory. Again, in the interior of the Pacific coast province are excellent stretches of range country, capable of carrying great herds of live stock. The establishment of new enterprises and the importation of numerous animals are continually being reported, the bulletin announces.

Canada's Highest Officer

The highest official in British Columbia is the fire ranger occupying a lookout station on Mount Carlier in the Revelstoke District of British Columbia, 9,000 feet above sea level. Even in summer weather he obtains his water supply from snow. From his exalted station this ranger guards an area containing 130,000,000,000 feet of British Columbia timber.

"Is that bottle of rum your sole consolation?"

"Oh, no. I have two more in the cupboard!"—Pete Mele, Paris.

"He has an illness the doctor does not understand. He can eat and drink as well as ever—but he cannot work. I don't call that an illness, I call it a gift from Heaven."—Sondagsnisse-Strik, Stockholm.

Why is Red Rose Tea so fresh and flavory? The answer is that it is a blend of the choicest, juiciest leaves, picked when only ten days old—and sold by your grocer in clean, bright aluminum. No tea can be expected to retain its richness and strength unless packed in this modern metal container—the only package worthy of Red Rose quality.

WORLD HAPPENINGS BRIEFLY TOLD

Henry J. Wright, K.C., 66, prominent Toronto barrister, is dead.
The London sketch says that Oscar Slater, whose conviction of murder was recently set aside after he had been imprisoned for years, has accepted the government's offer of \$6,000 (\$30,000) as compensation for his wrongful conviction.
Rev. Father James Huntin, former rector of St. Michael's, London, Ont., and St. Joseph's, Brantford, was killed when he wandered on the C.N.R. tracks near his home. He retired a few years ago and was in poor health.

One of the best known railway conductors in the west and for the last three years vice chairman of the Western Region, C.N.R., Order of Railway Conductors, Harry Sells Osterlander, 42, is dead at his home in Brandon.

Practical certainty that Charles Evans Hughes, of the United States, will be elected at the September meeting of the League of Nations, a member of the Permanent Court of International Justice at The Hague came recently, when Italy and Poland joined the 26 nations who previously had nominated him for the place.

The first appointment of its kind to be made in Canada is that recently made by Miss Lillian Hollingshead, a graduate of The University of Saskatchewan, will become a member of the staff of the Dominion rust laboratory in Winnipeg, her duties to begin next Spring. Miss Hollingshead is now at the University of California.

DIARRHŒA Was So Bad Child Passed Blood

Mrs. Harry Nesbitt, R. R. No. 2, Shannon, N.B., writes: "Last fall my little boy took very bad with diarrhea and before I knew it he was passing blood. I went to our medicine case and gave him a dose of

and a little later gave him another, and half an hour after the second dose he got relief and by the time he had taken six doses he was like a different child."
This wonderful bowel complaint remedy has been on the market for over 30 years—put up only by The T. Milburn Co., Limited, Toronto, Ont.

W. N. U. 1746

Farmers' Marketing Tour
Canadian National Railway's Tour To Great Britain and Denmark, 1928

(Continued.)

Having seen Impington Hall, once the home of Samuel Pepys, a three hours' run took us to St. Ningham. En route were Huntingdon, the birthplace of Oliver Cromwell, Peterborough with its cathedral founded in 1118—here Catherine of Aragon was buried, and for some time the body of Mary, Queen of Scots, lay, Stamford, sacked by the Lancastrians in 1461; Oakham, where every traveller was required at one time to leave a horseshoe at the Castle, the earliest of the present collection being contributed by Queen Elizabeth; and Melton Mowbray, famous for its pork pies, Stilton cheese and fox hunting.

Our stay in Nottingham was for the night only. By 8.30 a.m. we were on our way to Newcastle, passing through Ollerston on the border of Sherwood Forest, of Robin Hood fame; Doncaster, of the races and butterscotch; Selby, with its Abbey built by William the Conqueror; York; Darlington, the birthplace of the modern railway; and Durham whose cathedral, one of the most dominantly situated in England, is acknowledged the grandest Norman cathedral in the north.

Lunch at York gave us opportunity to visit York Minster and to view the city walls. History is not merely evidenced but felt in York. Here died the Roman emperor Severus in the year 211. Here the son of Constantine the Great was proclaimed Emperor of Rome in 306. From their base in York the Romans conducted more than one campaign. In the 13th century York was a torchlight of Christianity. Last year York celebrated the 150th anniversary of the founding of York Minster.

Amazement filled our minds as we entered this glorious building, lofty and more magnificently spacious than any cathedral we had seen from floor to roof 99 feet clear, 102 feet in the choir. The east window, the second largest in the world, is 75 feet by 32 feet. The stained glass is the most perfect and extensive in Britain. The Chapter House is the most beautiful in England. It is believed that the pagan temple of Diana stood on the site of York Minster. Here the Saxons, King Edwin embraced Christianity and in the crypt we saw the well from which he was baptized! How wonderful that we should find within this venerable Minster the names of Canadian women! We found them on the oak panels below the "Five Sisters Window" which was recently restored, and unveiled by the Duchess of York to the memory of 148 British women killed in the Great War. The Canadian names numbered 42.

One could not leave Yorkshire without a tribute to the excellence of its farming, the neatness and thriftiness that characterize this county of "broad acres." In this respect Yorkshire farming excelled anything we had seen.

Nowhere was it better seen than at the home of Mr. J. N. Strickland, Bailenese. Caterick, one of the most outstanding breeders of dual-purpose Shorthorns in England today. By his courtesy some thirty of our party were enabled to see his herd and enjoy the hospitality of his home. As we rode on north we passed through the historic ground where the Shorthorn breed had its beginnings, and it was interesting to see over Mr. Strickland's mantel the picture of one of his ancestors who sold cattle to Angus Cruickshank.

As we passed through Darlington, we stopped in the famous old market place, the scene of historic contests and animated discussions on the relative merits of the cattle of various old-time founders of the Shorthorn breed.

Newcastle, like Nottingham, was reached in the evening and left early in the morning, so we had not time to view this busy city. Suffice it to say that we were impressed by its activity and the signs on every hand of its industrial and maritime importance.
The journey towards the Scottish border was through beautiful and increasingly hilly country, becoming wilder and more magnificent as we approached the Cheviots. Then a stretch of wire running to the top of a sugar loaf hill and a board marked "SCOTLAND" told us that we had reached the Border. Cheers broke out as each car-borne crossed its own salute to "Caledonia, eternal and wild." Soon, however, the sterner beauties of the Cheviots gave place to a kinder prospect. Hard to believe that we were passing through the battlefields of the Cheviot Chase where the forces of Hotspur fought the troops of Douglas by moonlight 540 years ago.
We lunched at Melrose which stands in Melrose Abbey, the finest ruin in Scotland, founded by the Clacians in 1130, but destroyed, rebuilt and extended at various times. The ruins are principally those of the 14th century. Near the High Altar, the king of King Robert the Bruce, is said to have been buried.
We had now a solemn duty to perform, a sad tribute to pay. We had been shocked while in Denmark, to learn of the sudden death of Earl Haig. The funeral had taken place before our return to England, but

Assorted Sandwich with rich Cream Fillings

"Christie's" of course

There is something so exceptionally appealing about Christie's Assorted Sandwich. A combination of deliciously flavored cream fillings and crisp biscuits that fairly melt in your mouth. Vanilla, Chocolate, Strawberry, Orange flavors.

In the store or on the 'phone, always ask for

Christie's Biscuits

The Standard of Quality Since 1853

Dryburgh Abbey was one of those places which we were to see en route to Edinburgh. What more natural that that we should wish to pay a tribute for ourselves and Canada at the last resting place of the great Field Marshal. We had brought with us a wreath of poppies, obtained from the British Legion, that body of ex-servicemen for whom the late Earl had done so much. It was late in the afternoon when we reached Dryburgh Abbey, and the setting sun was shining through the trees. In this sheltered spot, quiet as in the days when monks had meditated there, the world seemed far away. We felt the peace of Dryburgh enfold us as we formed up silently to march in procession to the simple grave. Mrs. Matheson carried the wreath. Reverently it was deposited, reverent we stood and listened. We were still silent when we moved away. A high privilege had fallen to our lot, a deep experience.

SUNDAY SCHOOL LESSON
AUGUST 19
PAUL CARRIES THE GOSPEL INTO EUROPE

Golden Text: "Come over into Macedonia, and help us."—Acts 16:9.
Lesson: Acts 16:6; 16:15.
Devotional Reading: Isaiah 60:1-6.

Explanations and Comments
The Macedonian Call, verses 9, 10. Paul was at Troas, the gateway to Europe. As he walked the streets he saw a motley crowd, among them many Europeans. As he stood in the harbor and gazed out at the distant islands fringing the coast of Macedonia, he must have longed to go over and possess that part of the world for Christ. It was a natural vision which appeared to Paul that night, of a man of Macedonia standing before him and begging him to "Come over into Macedonia and help us."

There was that mighty power which has been called "the urge of God's calling upon a soul ready to obey the divine behest to the uttermost."
"How came the vision to take this shape—a man standing beseeching him? Perhaps because the human imagination tends always to personify human need. Phillips Brooks once committed to a friend that sometimes, as he preached in Trinity Church, the multitude of faces in the congregation, expressing their multitudinous hunger and yearning, would suddenly melt into a composite face, all the people becoming for the moment a single person whose vast need moved the preacher profoundly, and to whom he poured out his secret soul in impassioned utterance. It may have been thus with Paul and the Macedonians. His eager yearning to help would not permit him to think of them impersonally as a collection of individuals, but only as a composite personality whose need was so acute that a way must be found to help them. I think the success of the missionary enterprise always will depend upon the power of Christians to visualize and personalize the names of non-Christians in this way."—James A. Beebe.

"I am confident that when the Almighty would not do or get to do a particular thing, he finds a way of letting me know."—Lincoln.
"God will send me to preach in Macedonia," Paul believed, and "straightaway" he made his plans to obey his orders.
Very few old men, W. Robertson Nicoll thinks, look back with regret upon the decisions that they made at the crisis of their careers, and the reason is, he says, that they are not left so much to their own wisdom as we think. All unconsciously to ourselves we have been guided.

Knew His Subjects
Two colored men came to the outside of a crowd where a politician was making a speech. "Who am dat man, Sam?" asked one. "Ah doan know what his name is," Sam replied, "but he sure do recomend' himself mo' highly."—Vancouver Province.

Radium is the most costly metal in the world.

Would Remit Customs Duty

Grade Eggs and Pure Bred Rambouillet Rams From U.S. To Enter Free For Certain Period
An order-in-council has been passed providing for the remission of customs duty on grade eggs and purebred unregistered Rambouillet rams imported from the United States during the period commencing September 1st and ending November 30th. These sheep are imported for breeding purposes, and must conform to all regulations as to health and be subject to all quarantine orders. The supply of these classes of sheep in Canada is not sufficient to meet the demand, and a large quantity is available in the United States for export. Similar action has been taken during the past few years on recommendation of the Minister of Agriculture.

Coals To Newcastle

Modern Counterpart of Old Adage In Shipment of Wheat To Russia
The old adage about shipping coals to Newcastle has a modern counterpart in the shipment of about \$5,000,000 worth of Canadian wheat to Russia, which went forward from Montreal recently.
Before the war Canada's greatest competitor in the wheat markets of the world was Russia, but conditions have so changed that not only is Canada now the world's greatest wheat exporter, but she is actually shipping wheat to Russia. The shipments are said to be necessary to meet a threatened food shortage in Russia.

The writer's train of thought is a construction train.

When a man is generous to a fault it is usually to one of his own faults.

Lasting!

It takes skill to build things to endure. Anyone can build a battery—but only Eveready can make a Hot-Shot!

30 years of experience have taught Eveready how to put the longest life into batteries for farm to put. From the current-making materials to the waterproof steel case, every feature of these famous power plants is rigidly tested by highly trained chemists, engineers and battery builders.

Each battery bearing the name Eveready bears a full guarantee of satisfaction. Remember, if it's not an Eveready, it's not a Hot-Shot.

Canadian National Carbon Co., Limited
Calgary TORONTO Montreal
Vancouver Winnipeg

GREATEST CROP IN HISTORY IS THE PREDICTION

Winnipeg.—Western Canada is on the threshold of its 1928 harvesting season, with present prospects pointing to the production of the greatest crop in the history of the country.

Throughout the prairie provinces most encouraging progress is being made by all grains, and in districts where cutting has started, estimates of wheat yields have ranged from 25 to 40 bushels to the acre.

Recent reports from authorities making their annual field inspections have revealed the crops in varying stages with the most advanced having completed cutting, and in one instance threshed, while in the more backward areas another two weeks of favorable weather will be required to bring the crop to maturity.

The general condition, however, finds the 1928 crop slightly ahead of conditions at this date last year, and binders are expected to be humming over the western grain fields within a few days.

Cutting of barley, rye and oats, has been underway in some sections for the past week, with these crops yielding slightly above the ten-year average.

While no official estimates have yet been made of this year's wheat crop, the consensus of opinion of authorities who have travelled through the western provinces during the past week, is that final figures will show a crop of approximately 450,000,000 bushels.

The feature of the growing crop to date is its freedom from rust damage or other pest infection. Hail has taken a considerable toll, particularly in Saskatchewan, but the increased acreage seeded this spring is expected to offset this loss.

The first harvest of grain train is expected to reach Winnipeg from Eastern Canada this week. The railway companies also are moving thousands of grain cars to the various centres of movement.

Yet another indication of preparedness is the arrival of Leslie Boyd, chairman of the Board of Grain Commissioners, to make arrangements for the hearings on grain rates for interior elevators. These rates will be fixed by the board on the strength of the evidence submitted, and made public by Sept. 1.

Pilgrims At Ypres

Impressive Ceremony Is Held In Which 11,000 British Veterans Participated

Ypres, Belgium.—Eleven thousand British veterans of the Great War, including 3,000 women who served in various capacities during those four terrible years, gathered about Menin Gate on Aug. 24th for a solemn ceremony in commemoration of their comrades who fell in the desperately held Ypres salient.

Among them stood the Prince of Wales, Lady Haig, the widow of Britain's victorious commander; Admiral Jellicoe, president of the British Legion, who headed Britain's naval forces in the great struggle, and other commanders who bore a share in the battle of Ypres.

The pilgrims had come, some marching along the familiar roads and others by train, their numbers swelled by thousands who had gathered to witness the ceremony until it was estimated that nearly 20,000 men, women and children joined in singing the opening hymn, "O Valiant Hearties."

The service, in which the huge congregation participated, was beautifully simple and supremely impressive.

Has Rank Of Colonel

Dublin.—Major James Fitzmaurice, member of the crew of the trans-Atlantic plane Bremen, has been promoted to the rank of colonel in the Free State Air Service.

Respect For Flag

Kingston, Ont.—Ontario branch Canadian Legion, in convention here, condemned the use of the Union Jack to drape desks at meetings, etc., and would have it used only as a flag.

W. N. E. 1928

New Telephone Service

All-Canadian Phone Service Between Winnipeg and East Is Inaugurated

Winnipeg.—Inaugurating the all-Canadian telephone service between Winnipeg, Toronto and Montreal, via Port Arthur and Port William, officials of the Bell Telephone Company, the Canadian Pacific Railway and the Manitoba Government, recently spoke to one another across 1,605 miles of copper wire.

The new line between Winnipeg and Montreal is approximately 1,605 miles, and is erected on Canadian Pacific telegraph pole line from Manitoba to Sudbury, via Port Arthur and Port William; from Sudbury it connects to all eastern points by the Bell Telephone Company's lines. The weight of copper of the new line amounts to 350 tons. There are nine repeater stations to amplify the conversations. This is the third stage in the all-Canadian telephone route the first being Winnipeg to Alberta in 1922, the second Winnipeg to the head of the Lakes in 1924.

The fourth stage is now being completed across the Rockies, the Canadian Pacific right-of-way being largely used, construction now nearing completion for the coast-to-coast telephone service entirely within the Dominion.

Italian Submarine Disaster

Twenty-Seven Of Crew Perish In The Tragedy

Rome.—Poisoned by acid fumes or drowned in the first rush of water, the crew of the Italian submarine F-14, sunk in a collision in the upper Adriatic, died to a man at their posts apparently with fortitude and resignation.

The stricken submarine was raised to the surface after 34 hours of desperate labor by divers who worked hour after hour to attach an air-pipe to the sunken vessel and to fasten steel cables in order that she might be lifted to the surface.

Twenty-seven perished in the tragedy. Reports received by the naval authorities indicated that there were 31 men aboard, but a check of the bodies today revealed that four of the crew had remained ashore for reasons which have not yet been ascertained. Included in the victims were two officers, Captain Well and Commander Pasulo.

Captain Well and Commander Pasulo were both at their posts of command in the conning-tower while the remaining members of the crew were all found dead at their stations. There were no visible signs of panic aboard the boat.

Co-Operative Movement

Wholesale Society Expects To Establish 200 Stores In Saskatchewan
Saskatoon, Sask.—Referring to the recent announcement of the formation of the Saskatchewan Wholesale Society, which is being sponsored by the United Farmers of Canada to sell goods to consumers at as near cost as possible, W. Moss Thrasher, secretary, said that about 200 stores would be established within the first year.

Preference will be given to districts known to be favorable towards co-operative effort. Within the same period he hopes to see between 700 and 800 trading units founded so that the province will be fairly well covered.

A Message To Women

Miss Ishbel Macdonald Does Not Believe In Equality Of Sexes
Toronto.—Miss Ishbel Macdonald, when visiting here with her father, Right Hon. J. Ramsay Macdonald, Labor leader, issued a message to the women of Canada. It read:

"Women are coming into public life not to work against men, but to co-operate with them in improving public affairs. I do not believe in equality. Men and women cannot be compared. Women are just as important as men but they are not equal any more than A and B in the alphabet."

To Identify British Products

London.—"Empire marketing begins at home," inscribed on a Union Jack, is a feature of the national park designed for the furtherance of a government scheme for ensuring the identification of British products.

COMES TO AMERICA

Hon. Mrs. Loel Guinness, one of the most beautiful of English aristocrats, is to take up residence in Pittsburgh, Pa., with her husband, who has been placed in charge of his father's business in that city. Before her marriage, a year ago, Mrs. Guinness was Hon. Joan Yard-Bulley, daughter of Lord and Lady Curzon.

Dies From Wounds

Stefan Raditch, Croatian Leader, Succumbs To Injuries

Vienna.—Stefan Raditch, Croatian peasant parliamentary leader, died recently at Zagreb, capital of Croatia. The city was grief-stricken, and troops are everywhere ready to suppress trouble.

Raditch died of wounds received last June 20, in parliament, when a radical deputy, Pucica Raschich, fired at frequent interruptions, whipped out his pistol and fired six shots into a group of Croats.

Each shot claimed a victim, two being killed, one of them at nephew of Raditch, and four wounded.

For a time Stefan Raditch's condition improved but he suffered a relapse which finally brought about his death.

Since his assassination Croatia has been in a condition almost of martial law, with troops patrolling its cities' streets to quell possible peasant demonstrations occurring as a result of the episode.

English School Girls Arrive

Will Make Educational Tour Of Canada From Coast To Coast

Montreal.—Twenty-five English school girls have arrived in Canada to begin a two month trip arranged under the auspices of the Imperial Daughters of the Empire.

Their itinerary, which takes them to the maritime provinces, to Northern Ontario and Central Canada, the Rockies and the West, has been planned to give the girls a taste of the many phases of Canadian life. The party will return home on October 11.

Long Trek For Pension

St. John, N.B.—"Disabled soldier on way to Ottawa to fight for pension that was taken away," is the inscription on a placard which Joseph McIntosh, a returned soldier, wore across his shoulders as he left the city on a long trek to the federal capital to seek renewal of his pension of \$110.75 a month.

Air Express Inaugurated

Before the propeller stops whirling the Canadian Pacific Express truck is on its way to the city with parcels for delivery. A new air route gives bi-weekly express service in each direction between Toronto, Ottawa, Montreal and the steamship office Rimouski. Two days is gained over regular express schedules, western consignments being transferred to the Vancouver Express at Toronto.

French Plane Crashes

Maurice Drouhin, Noted French Aviator, Is Fatally Injured

Orly, France.—Another attempt to fly from Paris to New York ended in disaster before it had even begun.

The giant tri-motored "Rainbow" crashed on the landing field at Orly aerodrome, killing the mechanic, Lanet, fatally injuring the pilot, Maurice Drouhin, noted French flyer, and injuring two others, Gianoli and Manuel.

The big plane, designed by Rene Coudreau and built entirely of wood, so constructed that all of its essential machinery would be accessible during flight, was a complete wreck, parts of the wings, fuselage and wires being strewn for 1,600 yards along the field.

"The Rainbow" was being put through its final test preparatory to a start across the Atlantic this week when the accident occurred.

It was racing close to the ground at about 125 miles an hour when a few spectators noticed a huge wing wobbling. The engines were cut off then, but the deformation of the wing caused the giant plane to shoot almost perpendicularly into the air to a height of about 450 feet. There it slid to one side, apparently refusing to respond to the controls.

As it reached the ground it tore through a strong wire fence, knocked over iron posts, and crashed against the corner of a hangar, coming to a stop a crumbling wreck on the road bordering the field.

British Harvest Help

Satisfactory Arrangements Completed With The British Government

Ottawa.—Satisfactory arrangements have been completed with the British Government for the movement of harvest help from the British Isles to the wheat fields of Western Canada, according to a statement issued by the department of immigration and colonization.

This movement, which will begin at once, will be under the direction of the British Government, the Canadian National Railways and the Canadian Pacific Railway.

The two railways will be responsible for placing the men in harvest employment on their arrival from the Old Country and the Dominion Government and the Provincial governments will co-operate with the railways in placing these harvesters in winter farm employment in Canada after the rush of the harvest work is over.

Satisfactory arrangements have been made for the return fare of those harvesters for whom winter farm employment cannot be found.

May Defer Old Age Pensions

Toronto, Ont.—Old age pensions may be deferred in Ontario for another year. Indications are that the survey ordered by Premier Ferguson will not be completed for the next session of the legislature, and so the bill may come up on the eve of the next election.

French Airmen Killed

Paris.—Captain Labbe and three assistants were killed when their plane crashed at Bourges near the end of a 24-hour flight. The plane was burned. The charred bodies of the men were recovered from the wreckage.

EXTENSION OF PREFERENCE IS EXPECTED SOON

Ottawa.—The Citizen says: "A very important regulation vitally affecting British trade with Canada, is scheduled to go into effect this autumn, but just when this will be it for the government to decide."

"As a matter of policy it has been agreed to increase from 25 to 50 per cent. the requirement of Empire labor and materials in British importations in order to entitle them to the British preferential tariff, but before this is operative, customs regulations have to be devised and put into effect."

"As the idea originated with Hon. J. A. Robb, his return from abroad next week is awaited before regulations are considered."

"There have been long complaints about goods, very largely manufactured in foreign countries and then sent to Great Britain for the finishing touches and shipped from there as 'Made in England,' this being eligible for the British preferential tariff."

"The new exaction of fifty per cent. Empire labor and materials will not only rectify this, but will have a large influence on the importing trade in Canada."

Rich Gold Strike

Gold and Platinum Found In Northern Saskatchewan

Edmonton, Alberta.—Said to be incredibly rich in gold and platinum, a "strike" has been made along the north shore of Lake Athabasca, to the east of Black Bay, in the province of Saskatchewan, according to a statement made by Ed. Meyers, Fort Chipewyan trader, who is now in the city.

Jack Harvey, well-known geologist, made the strike, following sporadic search for many years along the north shore of the lake, which has long been rumored to be rich in gold-bearing quartz.

Tests made at the University here disclose that some of the ore carries a content of precious minerals as high as 84 per cent., although this has not yet been confirmed.

According to another northerner, Charlie L'Argent, who makes one of the syndicates which is outfitting to head for the scene of the new find, one of the assays gave average returns of \$45 per ton of some of the quartz shipped south from the scene of the find.

Storm-Swept Florida

Hurricane Creates Havoc Over Jacksonville, Fla.—After hammering at communities in the sparsely settled sections of East Central Florida, the tropical storm emerged to sweep Winter Haven and other towns in the rich central citrus country.

City officials at Winter Haven, approximately 50 miles east of Tampa, related that winds of 75 miles an hour velocity had followed earlier gales of 40-mile speed.

Grave fears are felt for the great citrus orchards, laden with fruit, in the immediate path of the storm.

Meanwhile reports trickling in from the country between the new storm front and the Atlantic told of half a dozen towns and communities visited by damage from the storm.

Bombs Thrown By Bandits

St. Paul, Minn.—Blinded by tear gas bombs thrown by bandits the driver and five guards of the Sweeney Detective Bureau armored money car were robbed of \$20,000 in currency here recently.

Buys New Plane

Dessau, Germany.—Charles A. Levine, first trans-Atlantic aeroplane passenger, has purchased a Junkers plane of the Bremen type for 100,000 marks (about \$23,850) for delivery here next week.

Vesuvius In Eruption

Naples, Italy.—The volcano Mount Vesuvius is in eruption, the clouds of smoke and lava being visible for 25 miles. A cordon of troops has been estimated and the army has kept spectators from the danger zone.

Circle the Globe

1. The Fairchild cabin monoplane, "Lily of New York" with her wings folded at Curtis Field, N.Y., before being loaded on a trans-Atlantic liner, dashed across the world. 2. The Empress of Russia, which carried Mears and Collier across the Pacific with their plane "The City of New York" aboard. She was used by Mears in 1913 when he made his first world record.

Twice now, John Henry Mears has circled the world in record time. On each occasion the Canadian Pacific liner "Empress of Russia" has enabled him to beat all former records. Twenty-three days before his plane "The City of New York" landed at Curtis field L.L. Mears and his pilot, B. D. Collier, flew 700 miles out to sea and landed aboard the ship that conveyed him to France. Arrived in Europe, he flew from Cherbourg to Yokohama and boarded the "Empress of Russia" at Kobe, where the white liner waited ready to dash across the Pacific

to Vancouver. From Vancouver to New York was covered by Mears' monoplane, which he carried with him on board. In his first article Mears prophesied success for himself and his companion because "the Canadian Pacific liner 'Empress of Russia' brought me luck when I broke the record" in 1913 and I look on it as a good omen that she is to help me break the record again.

He succeeded in breaking the record even better than expected, the "Empress of Russia" bringing him in a day ahead of schedule, enabling him to hop across the continent in his plane and arrive at Battery Park, New York, 23 days, 15 hours, 21 minutes, and 3 seconds after he had left on his journey eastward. He sent the following telegram to Mr. H. B. Beaumont, of the Canadian Pacific Steamships at Montreal:—"Collier and I want to express our deep appreciation for the splendid cooperation we have received on our trip across the Pacific on the 'Empress of Russia.'—Getting the ship in to Victoria Friday evening ahead of schedule saved us a day and we are deeply grateful."

HUDSON

Patents F-Head Motor

The U.S. Patent Office has granted patents to the Hudson Motor Car Company on the "F-Head" high-compression motor. The patent—No. 1,656,051, relating to internal combustion engines—covers the entire arrangement of valves, spark plugs and combustion chamber.

With the new patented design Hudson motors now are built with a compression ratio of nearly 6 to 1—or 20 per cent above the average—with correspondingly high standards of acceleration, fuel economy and power. It is practically impossible to make the motor knock under even the most adverse operating conditions. The motor is the liveliest, most powerful and economical Hudson has ever built.

SATURD'Y, AUG. 18

AT 8.30 P. M.

MR. N. P. DAVISSON,

Field Supervisor for the Alberta Wheat
Pool, will give an Address.

Everybody Welcome !

W. M. WASHBURN, - CHAIRMAN.

A Birthday Party.

A very pleasant evening was spent Saturday, Aug. 4th at the home of Mr and Mrs Geo Liebert, when a number of friends gathered to celebrate Miss Mildred Liebert's birthday.

Those present were Mr & Mrs Geo Liebert; Mr & Mrs Geo Logan of Fall City, Ore; Misses Mildred and Annis Liebert, Kathleen and Ivy Powell, Helen Wibray, Bertha Washburn, Bessie Woodley, Marcella Larson, Elsie Anderson, Esther Logan, Olive and Ruby Liebert.

Messrs G Barth, H Larson, C Anderson, R Meisner, M Bowser, H and W Washburn, M Larson, W Litzberger, J Powell, H Logan and H Liebert.

Some excellent music was given by Messrs Bartin, Larson and Anderson.

The evening was spent in dancing and playing games. At 12 o'clock a lunch was served, after which the participants departed for their homes wishing Miss Mildred many happy returns of the day.

The Early Birds.

We understand that there are tennis fans in the village who are either interested enough or crazy enough to get out to play in the early morning.—Hay Lake Times.

How He Found Out.

"Most of the Killam girls who attend dances here prefer not to marry," said a local fellow.

"How do you know," he was asked.

"Well, I should know," he replied. "I've asked 'em.—Viking News.

Stony Plain and District.

The meeting of Inga Councilors, called for the 10th, was postponed until tomorrow Aug. 18.

A special lecture and an interesting program will be given in Stony Plain on the evening of Monday next, Aug 20th, by Pastor G W Slater, of Immanuel church, Edmonton, assisted by members of his church choir. Pastor Slater will preach in the local United church at 7.30 p.m. Sunday Aug. 19.

Mr Peter Schoepp on Monday sold a truckload of lambs to Meredith Bros for 10c lb. live weight.

Meredith Bros. want cattle. Phone 24.

United Church Notes.

At the United Church service on Sunday evening last a very beautiful selection was sung by nine young ladies. The singing was greatly appreciated. Miss Ruth Wright acted as organist.

The pastor, Rev G A Sander, preached from the text, "I must be about My Father's business." The attendance was very good.

It is expected that the Young People's choir will be reorganised soon.

The United Church Sunday school will re-open after the summer holiday on Sunday, Aug. 26, at 11 a.m.

Duffield Doings

The Community dance held last Friday evening at the Rink was well attended. Tyrrells supplied the music.

Mr Estock returned last week from a motor trip to Wainwright. He reports the crops as being good down there, and that wheat cutting had commenced.

The wife of Mr Gelbrandt Ohlsen passed away on Thurs. last, Aug. 9th. Deceased had been a resident of the Mewassin district for a number of years, and had been ailing for some time, following a slight stroke. The funeral took place on Saturday, to the local cemetery, the services being conducted by Rev C H Repert, of the Reform Church.

A large number of friends and acquaintances testified to the esteem in which deceased was held by following the funeral cortege to the graveside.

The Stampede yesterday afternoon at the Badke farm was well attended, and some interesting feats of horsemanship were shown.

Secretary L H Ohlsen is advertising for a teacher for Mewassin school.

\$20 Reward !

Spruce Grove News

A meeting in the interests of the Wheat Pool will be held in the Grove tomorrow (Friday) at 8.30 p.m. It will be addressed by Mr N Davison. It is expected that a representative of the Dairy Pool will be present to give an address.

Builder Saulz has just finished a garage for Mr MacKean's Chevrolet.

The palm for early cutting in Winterburn district goes to Mr Heber, who had wheat cut and stacked on Aug. 6th.

The district north of the Grove is said to have suffered from hail in the big storm of August 7th.

Mr Shirwin this week purchased a Chevrolet truck from Sommerfeld & Mayer.

Saturday, the 11th, was the last day set by the Postal Department for receiving applications for the vacant Postmastership here.

The "Duke" was in town one day last week, had a lovely time, and received a nice present—a brother Scot took him to a corner service station and filled his tires with air.

Carvel News.

Mr John Repetsky, who recently had his foot injured at a sawmill, is making a good recovery at his home here.

Mr W Markovitch is said to be contemplating the removal of his blacksmith outfit to another location.

At a meeting of the Ukrainian Association, at their hall last week, a delegation was appointed to interview the owner of the site for a church at Carvel Station, and were authorised to close the deal.

Mr Alec's wedding party on Saturday night came near being a false alarm. The couple had gone to the city to be married. Their car broke down on the way back, compelling them to get aboard the evening train, and when Alec and his bride reached the hall only about a score of persons were present.
